Dave,

On behalf of DNR and EPA, I want to thank you for meeting with our staff earlier this week to discuss recent groundwater testing that indicates elevated nitrate concentrations in groundwater. Attached is the letter providing our feedback on AGCs proposal.

We appreciate AGCs efforts to provide an alternative water supply to homeowners experiencing elevated nitrate levels in their wells and look forward to continued collaborative efforts to resolve this issue. Please feel free to contact me if you have any questions concerning the attached letter.

Thank you,
Jim

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.
